About Us

Founded in 2021, we are a women-led startup, for startups.

What We Do

We provide legal services to startups in Southeast Asia

How can Founders Doc support you?

We think that ambitious **startup founders** could be better represented and supported.

So, we **specialise in supporting** early-stage companies and founders between the pre-seed and Series C stages.

We **simplify** legalese, so that **YOU** understand what you're signing.

XOXO,
Founders Doc
